Dear colleagues!

For me it's a great pleasure and honor to organize the

7<sup>o</sup> Live Surgery and Symposium  
“Innovations in Coloproctology”

It will be an international meeting with famous colorectal surgeons from all over the world.

In the live surgery session on the first day we will show the newest techniques in colorectal surgery, operated by the very experts and developers of these new techniques.

On the second day we will have four interesting scientific sessions, regarding laparoscopic colorectal surgery and various difficult problems in Coloproctology.

On Wednesday, June 17, we offer Preconference Workshops and Hands on Courses. On Saturday June 20 there will be postconference meetings and workshops.

You get trained by the world number one experts in these new techniques.

Looking forward to amazing days in Berlin

Yours
